

## Motorola PHOTON™ 4G Fact Sheet

### Unparalleled Speed and Accessibility

Motorola PHOTON™ 4G provides an on-the-go edge for managing your life from anywhere around the world. The PHOTON 4G delivers a dual core processor, 1GB of powerful PC-grade RAM, combined with Sprint's 4G network, empowers you to browse, download and multitask all at maximum speeds. Get way more done with the PHOTON 4G, providing an array of versatile tools like the Motorola webtop application for accessories.

### Go Anywhere Powerhouse

The Motorola PHOTON 4G delivers hardware specs that are, in a word, spectacular. A best-in-class 4.3" qHD touch display and 1GHz dual core processor top the list, quickly followed by an astonishing HD video capture and playback capability. Equipped with powerful imaging enhancement software, PHOTON's 8MP camera delivers shutter lag speeds rivaling those of a standalone digital camera: less blur, fewer missed shots, more action, more picture perfect photos. Say goodbye to the days of rationing disk space on your smartphone; the PHOTON offers the largest total memory of WiMAX smartphones with 16GB of built in memory which can be expanded to a total of 48GB.

### Access Entertainment

The Motorola PHOTON 4G you can stream the latest Hollywood hits and TV shows instantly, and watch them on PHOTON's stunningly crisp 4.3" qHD display. Listen to your favorite music, streamed for free through Pandora. Or simply connect to the mobile HD Multi-Media accessory dock\* to watch high definition video and play games on the big screen. Equipped with a powerful 8MP camera and dual LED flash, PHOTON gives you a license to thrill, complete with image-enhancing software for vivid photos and a multi-shot mode for lightning-fast photos. With 16GB of onboard storage with the option to expand storage of up to 48GB with an optional SD card, PHOTON 4G allows you to keep photos and videos directly on the device. Or if you prefer, share them immediately on social media sites like Flickr™, Picasa™ or Facebook®.

### Access Business Productivity

Powered by the Motorola PHOTON 4G, get the revolutionary webtop application from Motorola that instantly extends the PHOTON into something far beyond the average smartphone. Just connect your PHOTON to unique HD Multi-Media dock accessory and webtop does the rest. Via an HDMI connection to HDTV or PC monitor, launch a full Firefox 4.0 browser that gives you access to your phone's interface, 200,000 Android Marketplace apps, surf the Web, make calls, send texts, or run GoogleDocs, and other Web apps. To make sure this data remains yours alone, PHOTON 4G implements several business-grade security measures such as data encryption and remote device management for maximum security. Take it everywhere as PHOTON 4G keeps you connected with worldphone calling and video chat for the easiest way to stay ahead the world around. With the PHOTON 4G by Motorola, nothing is out of reach.
